MICROBIOLOGY

Seminar Series — Spring 2004

<u>Date</u>	<u>Speaker</u>	<u>Title</u>	<u>Host</u>
January 22	Paul T. Hamilton, Ph.D. Karo Bio USA Durham, NC	Peptides from Phage Display Libraries as Tools for Drug Discovery	Dr. J. Brown
January 23	Lisbeth Hamer, Ph.D. NCSU Microbiology	Translational Research and Education <i>(Candidate for a position in the Department of Microbiology)</i>	Dr. E. Miller
January 30	Thomas D. Gaffney, Ph.D.	Antifungal Target Gene Discovery with the Filamentous Fungus <i>Ashbya gossypii</i> <i>(Candidate for a position in the Department of Microbiology)</i>	Dr. S. Laster
February 5	No Seminar		
February 12	Herb Schellhorn, Ph.D. McMaster University Hamilton, Ontario Canada	What is the real role of the RpoS regulon in <i>Escherichia coli</i> ?	Dr. H. Hassan
March 2 <i>Note: Tuesday</i>	Michael J. Stewart NCSU Microbiology	PKR, Myocarditis and the Cardiac Response to Reovirus Infection <i>(In partial fulfillment of the requirements for the Ph.D. degree)</i>	Dr. B. Sherry
March 4	Juan D. Alfonzo, Ph.D. The Ohio State University Columbus, OH	Editing and Import of tRNA in trypanosomes: dealing with vagaries in the genetic code	Dr. J. Brown
March 8 CANCELLED	Dong Yu, Ph.D. Princeton University Princeton, NJ	A Genetic System for Dissecting Human Cytomegalovirus Infection <i>(Candidate for a position in the Department of Microbiology)</i>	Dr. S. Laster
March 11	Zhao-Qing Luo Tufts University Medical School Boston, MA	Translocated Effectors Required for the Establishment of Replicative Organelle By <i>Legionella pneumophila</i> : How Many Does it Take? <i>(Candidate for a position in the Department of Microbiology)</i>	Dr. G. Luginbuhl
March 18	No Seminar	<i>Comprehensive Review March 17-19, 2004</i>	Dr. J. Brown
March 22 <i>Note: Monday</i>	Jeffrey Cirillo, Ph.D. University of Nebraska, Lincoln, NE	Dissecting Intracellular Bacterial Respiratory Pathogens <i>(Candidate for a position in the Department of Microbiology)</i>	Dr. G. Luginbuhl
April 1	Tim Petty, Ph.D. NCSU Microbiology and Duke University	Host-Range Engineering of Modified Vaccinia Ankara Virus	
April 15	Joseph Kryzcki, Ph.D. The Ohio State University Columbus, OH	Pyrrolysine, the 22 nd Amino Acid	Dr. J. Brown
April 20 <i>Note: Tuesday</i>	Dong Yu, Ph.D. Princeton University Princeton, NJ	A Genetic System for Dissecting Human Cytomegalovirus Infection <i>(Candidate for a position in the Department of Microbiology)</i>	Dr. S. Laster
April 22	Francis L. de los Reyes, III, Ph.D. NCSU Dept. of Civil, Construction, & Environmental Engineering	Engineering meets Microbiology: Combining reactor studies with molecular approaches	Dr. J. Brown
